

Bill Hall, P.E.
Vice President and Chief Executive Officer

Bill Hall set the building blocks for his career at a very young age. In 1977, during his summer months of high school, Bill worked in the Survey Department at **United Consulting**. The fundamental skills and knowledge that he acquired at Warren Central High School and **United**, paved the way for his studies during college. Bill continued his summer work in surveying leading up to his graduation in 1983 from Purdue University with a Bachelor of Science Degree in Civil Engineering. Upon graduation, Bill became a full-time employee at **United**.

From 1983 – 1987, Bill expanded his realm of experience and was introduced to bridge design and inspection; eventually landing his career in the Construction Engineering Department. With several years of experience under his belt and after obtaining his Professional Engineer's License, Bill managed the Construction Engineering Department from 1988 – 1999. With Bill's strong work ethic and dedication, he worked his way up through the ranks and became a Vice President and partner in the firm in 1991. Currently, Bill is **United's** CEO and oversees the Water/ Wastewater, Environmental, Construction Engineering and Planning Departments.

Bill recognizes the importance of contributing to his community and profession. In order to fulfill this commitment, Bill is a member of several professional organizations such as the American Society of Civil Engineers (ASCE), American Council of Engineering Companies (ACEC) of Indiana, Indianapolis Regional Transportation Council (IRTC) Technical Committee, Greater Indianapolis Progress Committee (GIPC) and is an Associate Director of the Build Indiana Council (BIC). In addition, Bill was honored in the Warren Central H.S. Alumni Hall of Fame in 2006 and was awarded the Sagamore of the Wabash by the Governor in 2005 for being a mentor in the local community and his profession.

With Bill's vast experience in Surveying, Bridge Design and Construction, he has had the opportunity to work on a wide range of challenging projects. With his ties to the East side of Indianapolis, his most memorable **United** project is the I-465/ I-74 Interchange. In Bill's opinion, this is the best designed and most aesthetically pleasing interchange in the State of Indiana.
