

**Michael Rowe, P.E.**  
***Vice President - Transportation Director***

Michael Rowe graduated from Purdue University in 1995 with a Bachelor of Science Degree in Civil Engineering with a focus on Structural Engineering. After graduation, Michael worked in a variety of civil engineering fields gaining experience in structural design, geotechnical engineering, and construction inspection, and testing. In 2000, Michael joined **United Consulting** as a design engineer in the Transportation Department and shortly after obtained his Professional Engineer's License in Indiana.

During Michael's career, he has steadily worked from an entry position as a Design Engineer to his current position as the Transportation Director which oversees the operations of the Road, Bridge, Survey, and Right-of-Way Engineering Departments. Michael became a partner in the firm in 2010.

As an advocate of the Civil Engineering profession, Michael is an active member in several professional organizations such as the American Society of Civil Engineers (ASCE), a Committee Chair of the American Council of Engineering Companies (ACEC) of Indiana, and a committee member on Purdue University's Civil Engineering Professional Development Seminar.

Michael's career at **United** has focused on the design of interstates and interchanges. Michael has seen 12 interchanges through to completed construction across the state of Indiana. Michael's first interchange design, the I-65 and US 30 Partial Cloverleaf in Lake County, is his most memorable project.
